

# Home Renovation Rebate Program and CleanBC Home Efficiency Rebates

## Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2020

### GENERAL ELIGIBILITY REQUIREMENTS:

1. Home must be a year-round primary residence and one of the following types of residential buildings:
  - a. single family home (detached dwelling).
  - b. secondary suite in a single-family home (detached dwelling); the home and secondary suite must be individually metered.
  - c. mobile home that is permanently fixed, sits on a foundation and is structurally complete with installed and connected plumbing, heating, electrical, water and sewer services; towing apparatus and axle must be removed.
  - d. side-by-side or stacked duplex, each unit must have its own natural gas and/or electricity meter. Utility accounts must be in the name of the resident and/or homeowner; utility accounts in the name of a strata corporation are not eligible.
  - e. side-by-side row home or townhomes, each unit must have its own natural gas and/or electricity meter. Utility accounts must be in the name of the resident and/or homeowner; utility accounts in the name of a strata corporation are not eligible.
2. The following types of homes are not eligible:
  - a. multi-unit residential buildings such as condominiums, high-rises and apartment buildings;
  - b. stacked townhomes;
  - c. garages, workshops, and outbuildings; and
  - d. new homes, including homes that are defined as “substantially reconstructed,” by the Homeowner Protection Act (as per **Regulatory Bulletin: Substantially Reconstructed Homes and the Home Owner Protection Act (No. 6)**) or additions to existing homes. An existing space, such as a garage or solarium, converted into a living space is considered a new addition.
3. The home must be connected to a residential account with one of the following utilities:
  - a. FortisBC natural gas
  - b. FortisBC Inc.
  - c. BC Hydro
  - d. City of New Westminster
  - e. City of Penticton
  - f. City of Grand Forks
  - g. Nelson Hydro
  - h. District of Summerland
  - i. Pacific Northern Gas

We're working together to help B.C. save energy

4. The home must be primarily heated by one of the following (a primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C):
  - a. natural gas, propane or oil (a fireplace is not considered a primary heating system).
  - b. electricity (hard-wired electric heating systems such as electric baseboards, radiant ceilings, radiant floors, forced-air furnace, or heat pump).
  - c. homes primarily heated by wood or other solid fuels are only eligible for the following rebates:
    - i. natural gas water heater or heat pump water heater
    - ii. pre-upgrade EnerGuide Home Evaluation
    - iii. post-upgrade EnerGuide Home Evaluation
  - d. homes primarily heated by natural gas supplied by Pacific Northern Gas Ltd. are only eligible for the following rebates:
    - i. insulation
    - ii. windows and doors
    - iii. air source heat pump (convert from fossil fuel)
    - iv. air source heat pump with fossil fuel back up (dual fuel system)
    - v. heat pump water heater (convert from fossil fuel or electric)
    - vi. air-to-water heat pump (convert from fossil fuel)
    - vii. pre-upgrade EnerGuide Home Evaluation
    - viii. post-upgrade EnerGuide Home Evaluation
    - ix. Two Upgrade Bonus
    - x. Home Energy Improvement Bonus
5. Homes must have 12 months of continuous utility billing for the period immediately prior to the installation of the Upgrade(s).
6. All upgrades must be installed by a contractor with a GST number and a valid B.C. business license for the trade related to the upgrade being installed (e.g. Contractor—Electrical, Contractor—Heating, Inter-municipal trades and construction business license).
7. Rebates cannot exceed the cost on the invoice and the paid cost of the upgrade.
8. Rebates can only be claimed once.

**Note:** Additional Terms and Conditions apply. Visit: [bchydro.com/homerebates](http://bchydro.com/homerebates), [fortisbc.com/homerebates](http://fortisbc.com/homerebates) or [betterhomesbc.ca](http://betterhomesbc.ca) for full details.

# Home Renovation Rebate Program and CleanBC Home Efficiency Rebates

## Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2020

### MUNICIPAL TOP-UPS

1. Municipal Top-Ups are a limited time special offer funded by participating municipalities. Participating municipalities are listed on [betterhomesbc.ca/municipal-offers](https://betterhomesbc.ca/municipal-offers).
2. Municipal Top-Ups are subject to availability on a first-come, first-served basis while funds last.
3. Homes must be located within the municipal boundary of a participating municipality. Applicants, homes, upgrade eligibility requirements, and top-up amounts are listed on [betterhomesbc.ca/municipal-offers](https://betterhomesbc.ca/municipal-offers).

**Note:** Additional Terms and Conditions apply. Visit: [bchydro.com/homerebates](https://bchydro.com/homerebates), [fortisbc.com/homerebates](https://fortisbc.com/homerebates) or [betterhomesbc.ca](https://betterhomesbc.ca) for full details.

# Home Renovation Rebate Program and CleanBC Home Efficiency Rebates

## Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2020

### INSULATION

#### Rebate requirements:

1. New insulation must be:
  - a. batt, loose fill, board or spray foam.
  - b. installed in accordance with the **Best Practice Guide Air Sealing and Insulation Retrofits for Single Family Homes**.
2. Rebates are calculated based on the R-value of new insulation added
  - a. in cases where pre-existing insulation was removed (e.g. due to pest infestation or mold), the rebate is calculated on the difference in R-Value between the newly added and pre-existing insulation.
3. Pest infestations and rodent tunnels in the location of the insulation upgrade must be resolved. Your rebate application will be not be processed until the issue has been resolved.
4. All upgrades must be installed by a contractor with a GST number and a valid B.C. business license for the trade related to the upgrade being installed (e.g. Contractor—Electrical, Contractor—Heating, Inter-municipal trades and construction business license).

| Location of insulation upgrade                                 | Rebate per sq. ft. | Minimum R-value of new insulation to be added | Rebate maximum | Bonus eligibility  |
|--|--------------------|---|----------------|--|
| Attic—flat and cathedral ceiling                               | \$0.02             | R12   | \$900          | Each location that achieves a minimum \$500 rebate qualifies as one bonus-eligible upgrade |
| Exterior wall cavities   | \$0.09             | R12   | \$1,200        |  |
| Exterior wall sheathing  | \$0.09             | R3.8  | \$1,200        |  |
| Basement/crawlspace walls*                                     | \$0.09             | R10   | \$1,200        | Not bonus-eligible   |
| Other (exposed floor, floor over crawlspace*, basement header) | \$0.07             | R20   | \$1,000        |  |

\*One rebate for basement/crawlspace walls or floor over crawlspace

#### Supporting documentation:

1. Paid invoice (see [sample invoice for requirements](#)).

#### Deadlines:

The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

**Note:** Additional Terms and Conditions apply. Visit: [bchydro.com/homerebates](http://bchydro.com/homerebates), [fortisbc.com/homerebates](http://fortisbc.com/homerebates) or [betterhomesbc.ca](http://betterhomesbc.ca) for full details.

We're working together to help B.C. save energy

# Home Renovation Rebate Program and CleanBC Home Efficiency Rebates

## Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2020

### WINDOWS AND DOORS

#### Rebate requirements:

- The new windows and/or doors must:
  - replace existing windows and doors in the building envelope of the home between an unheated space (e.g. outdoors) and a heated space (e.g. indoors).
  - skylights are not eligible for a rebate.
  - be listed with one of the following certification bodies:
    - Canadian Standards Association (CSA)
    - Intertek Canada (Intertek)
    - Labtest Certification (LC)
    - QAI Laboratories (QAI)
    - National Fenestration Ratings Council (NFRC)
- The number of windows and/or doors eligible for rebates is based on the number of Rough Openings (“RO”) in which the windows or doors were replaced. Each RO is counted as one window and/or door. A bay window, which may be made up of several window sections, is regarded as one RO. Each bay window will qualify for one rebate.
- All upgrades must be installed by a contractor with a GST number and a valid B.C. business license for the trade related to the upgrade being installed (e.g. Contractor—Electrical, Contractor—Heating, Inter-municipal trades and construction business license).

| Upgrade            | Rebate     | U-Factor (As indicated on the product label) | Rebate maximum | Bonus eligibility   |
|--------------------|------------|--|----------------|---|
| Tier 1 window*     | \$50 each  | 1.40–1.23 W/m <sup>2</sup> –K                | \$1,000        | Minimum of \$250 rebate achieved qualifies as one bonus-eligible rebate |
| Tier 2 window/door | \$100 each | 1.22 W/m <sup>2</sup> –K or less             | \$2,000        |   |

\*Homes within the City of Vancouver municipal boundary are not eligible for the Tier 1 window rebate.

#### Supporting documentation:

- Paid invoice (see [sample invoice for requirements](#)).
- A photo of a manufacturer label from each installed window/door.

#### Deadlines:

- The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.
- Invoices dated from October 1, 2019 to March 31, 2020 for doors with a U-Factor of 1.40–1.23 W/m<sup>2</sup>–K are eligible for a \$50 rebate.

**Note:** Additional Terms and Conditions apply. Visit: [bchydro.com/homerebates](http://bchydro.com/homerebates), [fortisbc.com/homerebates](http://fortisbc.com/homerebates) or [betterhomesbc.ca](http://betterhomesbc.ca) for full details.

## Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2020

### NATURAL GAS FURNACE AND CONNECTED THERMOSTAT

#### Rebate requirements:

- The home must:
  - have a residential account with FortisBC natural gas.
  - be primarily heated by a natural gas heating system (a primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C).
- The new natural gas furnace must:
  - replace an existing natural gas furnace that is at least 10 years old.
  - be installed with a two-pipe direct vent system. Manufacturer's instructions permitting alternatives are not eligible.
  - be sufficiently sized to operate and serve as the primary heating system for the home.
  - be listed as an eligible system on [fortisbc.com/furnace](https://fortisbc.com/furnace).
  - must be installed in accordance with the **High-efficiency furnace installation guide for existing houses**.
- Emergency replacement of a broken heating system is not eligible.
- The connected thermostat must be installed by a licensed contractor at the same time as the new eligible natural gas furnace.
- All upgrades must be installed by a contractor with a GST number and a valid B.C. business license for the trade related to the upgrade being installed (e.g. Contractor—Electrical, Contractor—Heating, Inter-municipal trades and construction business license).

| Upgrade                                | Rebate  | Rebate maximum   | Bonus eligibility                      |
|--|---------|--|--|
| Natural gas furnace (95 to 96.9% AFUE) | \$800   | Maximum of one primary space heating system rebate per home, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed. | Qualifies as one bonus-eligible rebate |
| Natural gas furnace (97–99% AFUE)      | \$1,000 |  |  |
| Connected thermostat                   | \$150   | Maximum of one connected thermostat rebate   | Not bonus-eligible                     |

#### Supporting documentation:

- Paid invoice (**see sample invoice for requirements**).
- Photo of the two-pipe direct vent system. (see **sample 1** and **sample 2**)
- Copy of the commissioning sheet.

#### Deadlines:

The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

**Note:** Additional Terms and Conditions apply. Visit: [bchydro.com/homerebates](https://bchydro.com/homerebates), [fortisbc.com/homerebates](https://fortisbc.com/homerebates) or [betterhomesbc.ca](https://betterhomesbc.ca) for full details.

## Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2020

### NATURAL GAS BOILER AND COMBINATION SYSTEM

#### Rebate requirements:

- The home must:
  - have a residential account with FortisBC natural gas.
  - be primarily heated by a natural gas heating system (a primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C).
- The new natural gas boiler/combination system must:
  - replace an existing natural gas boiler that is at least 10 years old.
  - be installed with a two-pipe direct vent system. Manufacturer's instructions permitting alternatives are not eligible (this is not required for P9 certified combination systems).
  - be sufficiently sized to operate and serve as the primary heating system for the home.
  - be listed as an eligible system on [fortisbc.com/boiler](http://fortisbc.com/boiler).
- Emergency replacement of a broken system is not eligible.
- All upgrades must be installed by a contractor with a GST number and a valid B.C. business license for the trade related to the upgrade being installed (e.g. Contractor—Electrical, Contractor—Heating, Inter-municipal trades and construction business license).

| Upgrade                                  | Rebate                            | Rebate maximum   | Bonus eligibility                       |
|--|-----------------------------------|--|---|
| Natural gas boiler (≥94% AFUE)           | \$1,000                           | Maximum of one primary space heating system rebate per home, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed. | Qualifies as one bonus-eligible rebate  |
| Combination heating and hot water system | \$1,200 + \$300 Two Upgrade Bonus | Qualifies as one primary space heating upgrade and one primary water heating rebate.   | Qualifies as two bonus-eligible rebates |

#### Supporting documentation:

- Paid invoice (see [sample invoice for requirements](#)).
- Photo of the two-pipe direct vent system (not required for P9 certified tankless water heater with air handler combination systems). (see [sample 1](#) and [sample 2](#))
- Copy of the commissioning sheet (not required for P9 certified tankless water heater with air handler combination systems).

#### Deadlines:

The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

**Note:** Additional Terms and Conditions apply. Visit: [bchydro.com/homerebates](http://bchydro.com/homerebates), [fortisbc.com/homerebates](http://fortisbc.com/homerebates) or [betterhomesbc.ca](http://betterhomesbc.ca) for full details.

Effective date: For invoices dated on or after April 1, 2020

### NATURAL GAS FIREPLACE

#### Rebate requirements:

1. The home must have a residential account with FortisBC natural gas.
2. Owners of a home where the FortisBC natural gas account is in the strata's name are also eligible. Please submit the fireplace rebate application for stratas instead.
3. The new natural gas fireplace must be listed as an eligible system on [fortisbc.com/fireplace](https://fortisbc.com/fireplace).
4. All upgrades must be installed by a contractor with a GST number and a valid B.C. business license for the trade related to the upgrade being installed (e.g. Contractor—Electrical, Contractor—Heating, Inter-municipal trades and construction business license).

| Upgrade               | Rebate     | Rebate maximum | Bonus eligibility  |
|-----------------------|------------|----------------|--|
| Natural gas fireplace | \$300 each | N/A            | Maximum of one fireplace qualifies as one bonus-eligible rebate; must replace an existing natural gas fireplace. |

#### Supporting documentation:

1. Paid invoice ([see sample invoice for requirements](#))

#### Deadlines:

The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

**Note:** Additional Terms and Conditions apply. Visit: [bchydro.com/homerebates](https://bchydro.com/homerebates), [fortisbc.com/homerebates](https://fortisbc.com/homerebates) or [betterhomesbc.ca](https://betterhomesbc.ca) for full details.

### AIR SOURCE HEAT PUMP (CONVERT FROM ELECTRIC)

1. The home must primarily be heated by electricity (a primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C).
2. The new heat pump must:
  - a. replace an existing hard-wired electric heating system (e.g. electric baseboards, radiant ceilings, radiant floors, or forced-air furnace).
  - b. be sized to function as the primary heating system of the home.
  - c. serve a main living area (e.g. family room, living room or open-concept kitchen-living room).
  - d. have an AHRI certified reference number that references all components of the heat pump.
  - e. be listed as a qualifying system on the **Qualified Heat Pump Product List**.
3. Replacing an existing heat pump or adding a head to an existing heat pump are not eligible.
4. Emergency replacement of broken electrical systems is not eligible.
5. Products with a maximum static pressure of less than 0.6" Water Column (WC) are considered mini-split or multi-split systems.
6. All upgrades must be installed by a contractor with a GST number and a valid B.C. business license for the trade related to the upgrade being installed (e.g. Contractor—Electrical, Contractor—Heating, Inter-municipal trades and construction business license).

|  | Efficiency requirements   |
|--|---|
| Variable speed mini-split              | <ol style="list-style-type: none"> <li>1. SEER ≥ 18; HSPF (Region IV) ≥ 10.00</li> <li>2. Variable speed compressor</li> </ol>  |

## Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2020

### AIR SOURCE HEAT PUMP (CONVERT FROM FOSSIL FUEL)

#### Rebate requirements:

1. The home must be primarily heated by fossil fuel (oil, propane or natural gas). A primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C. A fireplace is not considered a primary heating system.
2. The new heat pump must:
  - a. be sized to function as the primary heating system for the home.
  - b. serve a main living area (e.g. family room, living room or open-concept kitchen-living room).
  - c. replace the existing fossil fuel heating system and all fossil fuel heating equipment (piping, appliances, fuel containers, vents and associated infrastructure) must be removed or decommissioned in accordance with all applicable laws.
  - d. have an AHRI certified reference number that references all components of the heat pump.
  - e. be listed as a qualifying system on the **Qualified Heat Pump Product List**.
3. Emergency replacement of fossil fuel space heating systems are eligible.
4. Homes in Non-Integrated Areas of the electricity grid must contact [betterhomesbc@gov.bc.ca](mailto:betterhomesbc@gov.bc.ca) for pre-approval prior to installation.
5. Products with a maximum static pressure of less than 0.6" Water Column (WC) are considered mini-split or multi-split systems.
6. All upgrades must be installed by a contractor with a GST number and a valid B.C. business license for the trade related to the upgrade being installed (e.g. Contractor—Electrical, Contractor—Heating, Inter-municipal trades and construction business license).

| Upgrade                                | Efficiency requirements  |
|--|--|
| Variable speed mini-split              | <ol style="list-style-type: none"> <li>1. SEER <math>\geq</math> 16; HSPF (Region IV) <math>\geq</math> 9.30</li> <li>2. Variable speed compressor</li> </ol>              |

| Upgrade                                | Rebate  | Rebate maximum   | Bonus eligibility                      |
|--|---------|--|--|
| Variable speed mini-split              | \$3,000 | Maximum one primary space heating system rebate per homes, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed. | Qualifies as one bonus-eligible rebate |
| Variable speed multi-split             | \$3,000 |  |  |
| Central system (Tier 1)                | \$1,200 |  |  |
| Variable speed central system (Tier 2) | \$3,000 |  |  |

**Supporting documentation:**

1. Paid invoice (see sample invoice for requirements).
2. Proof of fossil fuel (oil, propane or natural gas) system removal or decommissioning. One of the following documents will be accepted:
  - a. local government permit or inspection report, which must include:
    - i. date of inspection
    - ii. address where inspection took place
  - b. invoice from the removal or decommissioning company or heat pump installation company, which must include:
    - i. description of the work completed (e.g. the oil system, including oil tank, was removed according to applicable regulations and local government bylaws)
    - ii. date of removal or decommissioning

**Deadlines:**

1. The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

**Note:** Additional Terms and Conditions apply. Visit: [bchydro.com/homerebates](http://bchydro.com/homerebates), [fortisbc.com/homerebates](http://fortisbc.com/homerebates) or [betterhomesbc.ca](http://betterhomesbc.ca) for full details.

# Home Renovation Rebate Program and CleanBC Home Efficiency Rebates

## Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2020

### AIR SOURCE HEAT PUMP WITH FOSSIL FUEL BACK-UP (DUAL FUEL SYSTEM)

#### Rebate requirements:

1. The home must be primarily heated by propane or natural gas. A primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C. A fireplace is not considered a primary heating system.
2. The new heat pump must:
  - a. be sized to function as the primary heating system for the home. Serve a main living area (e.g. family room, living room or open-concept kitchen-living room).
  - b. be integrated with a propane or natural gas heating system and all propane or natural gas heating equipment (piping, appliances, fuel containers, vents and associated infrastructure) must be modified in accordance with all applicable laws.
  - c. have the thermostat, outdoor temperature switch-over control or equipment control board set to the following region-specific temperatures for the duration of the product lifetime:
    - i. Lower Mainland and Vancouver Island regions: 5°C
    - ii. Southern Interior and Northern B.C. regions: 2°C
  - d. be sized to ensure it has the capacity to meet the home's heat demand at or below the region-specific outdoor set-point (i.e. the application balance point must be lower than the region-specific outdoor thermostat set-point).
  - e. be listed as an eligible system on **Qualified Heat Pump Product List**.
  - f. have an AHRI certified reference number that references the outdoor unit and the indoor unit(s) of the heat pump, or the outdoor unit, indoor unit, and air handler or furnace model number.
3. A program approved heat load calculation is required to properly size the system. Rule of thumb equipment sizing will not be accepted. Supplemental heating from other electric or non-fossil fuel heating systems may be taken into account in the heat load calculation. Supplemental heating from fossil fuel heating systems (e.g. gas fireplace) cannot be taken into account in the heat load calculation. Program approved methodology can be found at [betterhomesbc.ca/faqs/heat-load-calculations](https://betterhomesbc.ca/faqs/heat-load-calculations).
4. Emergency replacement of fossil fuel space heating systems are eligible.
5. Homes in Non-Integrated Areas of the electricity grid must contact [betterhomesbc@gov.bc.ca](mailto:betterhomesbc@gov.bc.ca) for pre-approval prior to installation.
6. Homes primarily heated by oil are not eligible for an air source heat pump with fossil fuel back up with the following exception:
  - a. Homes in Northern B.C. (B.C. building Code Climate Zone 6, 7A, 7B or 8) provided:
    - i. the indoor and outdoor unit(s) of the heat pump are listed on AHRI certification as a matched system that meets the Program's HSPF and SEER requirements. However, an AHRI certified reference number that references all components of the heat pump, including the outdoor unit, indoor unit(s), and air handler or furnace is not needed.
    - ii. the requirement to remove, decommission or modify the oil furnace does not apply. The oil furnace may still be used as a back-up heating source.

We're working together to help B.C. save energy

7. All upgrades must be installed by a contractor with a GST number and a valid B.C. business license for the trade related to the upgrade being installed (e.g. Contractor—Electrical, Contractor—Heating, Inter—municipal trades and construction business license).

| Upgrade        | Efficiency requirements  |
|----------------|--|
| Central system | <ol style="list-style-type: none"> <li>1. SEER <math>\geq</math> 16; HSPF (Region IV) <math>\geq</math> 9.30</li> <li>2. Variable speed compressor not required</li> </ol> |

| Upgrade        | Rebate  | Rebate maximum  | Bonus eligibility                      |
|----------------|---------|---|--|
| Central system | \$3,000 | Maximum one primary space heating system rebate per home, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed. | Qualifies as one bonus-eligible rebate |

**Supporting documentation:**

1. Paid invoice (**see sample invoice for requirements**).
2. Proof of fossil fuel (oil, propane or natural gas) system removal, decommissioning or modification (where applicable). One of the following documents will be accepted:
  - a. local government permit or inspection report, which must include:
    - i. date of inspection
    - ii. address where inspection took place
  - b. invoice from the removal, decommissioning or modification company or heat pump installation company, which must include:
    - i. description of work completed (e.g. the oil system, including oil tank, was removed according to applicable regulations and local government bylaws)
    - ii. date of removal, decommissioning or modification
3. Copy of the heat load calculation based on program-approved methodology found at [betterhomesbc.ca/faq/heat-load-calculations](http://betterhomesbc.ca/faq/heat-load-calculations).

**Deadlines:**

1. The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

**Note:** Additional Terms and Conditions apply. Visit: [bchydro.com/homerebates](http://bchydro.com/homerebates), [fortisbc.com/homerebates](http://fortisbc.com/homerebates) or [betterhomesbc.ca](http://betterhomesbc.ca) for full details.

# Home Renovation Rebate Program and CleanBC Home Efficiency Rebates

## Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2020

### AIR-TO-WATER HEAT PUMP (CONVERT FROM FOSSIL FUEL)

#### Rebate requirements:

1. The home must be primarily space and/or water heated by a fossil fuel (oil, propane or natural gas). A primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C. A fireplace is not considered a primary heating system.
2. The new air-to-water heat pump system must:
  - a. be sized to function as the primary heating system for the home.
  - b. serve a main living area (e.g. family room, living room or open-concept kitchen-living room).
  - c. replace the existing fossil fuel heating system and all the fossil fuel heating equipment (piping, appliances, fuel containers, vents and associated infrastructure) must be removed or decommissioned in accordance with all applicable laws.
  - d. be listed as an eligible system on the **Air-to-Water Heat Pump Qualifying List**.
3. Emergency replacement of fossil fuel space heating systems are eligible.
4. Homes in Non-Integrated Areas of the electricity grid must contact [betterhomesbc@gov.bc.ca](mailto:betterhomesbc@gov.bc.ca) for pre-approval before the installation.
5. Homes with a combined space and domestic hot water boiler who are only installing an air-to-water heat pump for space heating may keep the boiler for domestic hot water. However, all connections between the boiler and the space heating system must be removed.
6. All upgrades must be installed by a contractor with a GST number and a valid B.C. business license for the trade related to the upgrade being installed (e.g. Contractor—Electrical, Contractor—Heating, Inter-municipal trades and construction business license).

| Upgrade                                | Rebate        | Rebate maximum  | Bonus eligibility                       |
|--|---------------|---|---|
| Air-to-water heat pump                 | \$3,000       | Maximum one primary space heating system rebate per home, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed. | Qualifies as one bonus-eligible rebate  |
| Combined space and hot water heat pump | \$1,000—4,000 | Qualifies as one primary space heating upgrade and one primary water heating rebate.  | Qualifies as two bonus-eligible rebates |

We're working together to help B.C. save energy

### Supporting documentation:

1. Paid invoice (see sample invoice for requirements).
2. Proof of fossil fuel (i.e. oil, propane or natural gas) system removal or decommissioning. One of the following documents will be accepted:
  - a. local government permit or inspection report, which must include:
    - i. date of inspection
    - ii. address where inspection took place
  - b. invoice from the removal or decommissioning company or heat pump water heater installation company, which must include:
    - i. description of work completed (e.g. the gas water heater was removed according to applicable regulations and local government bylaws)
    - ii. date of removal

### Deadlines:

The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

Effective date: For invoices dated on or after April 1, 2020

### ELECTRIC HEAT PUMP WATER HEATER (CONVERT FROM FOSSIL FUEL)

#### Rebate requirements:

1. The heat pump water heater must replace a fossil fuel (oil, propane or natural gas) water heating system and all fossil fuel water heating equipment (piping, appliances, fuel containers, vents and associated infrastructure) must be removed or decommissioned in accordance with all applicable laws.
2. The existing water heater being replaced must be the home's primary water heater.
3. Eligible systems are listed as Tier 2 or higher on NEEA's **Advanced Water Heater Specification Qualified Products List for Heat Pump Water Heaters**.
4. Emergency replacement of fossil fuel water heating systems with heat pump water heaters are eligible.
5. All upgrades must be installed by a contractor with a GST number and a valid B.C. business license for the trade related to the upgrade being installed (e.g. Contractor—Electrical, Contractor—Heating, Inter-municipal trades and construction business license).

| Upgrade                | Rebate  | Rebate maximum  | Bonus eligibility                      |
|------------------------|---------|---|--|
| Heat pump water heater | \$1,000 | Maximum one primary water heating system rebate per home, as part of the Home Renovation Rebate Program and CleanBC Home Efficiency Rebates, regardless of the number of systems installed. | Qualifies as one bonus-eligible rebate |

#### Supporting documentation:

1. Paid invoice (**see sample invoice for requirements**).
2. Proof of gas water heater removal. One of the following documents will be accepted:
  - a. local government permit or inspection report, which must include:
    - i. date of inspection
    - ii. address where inspection took place
  - b. invoice from the removal company or heat pump water heater installation company, which must include:
    - i. description of work completed (e.g. the gas water heater was removed according to applicable regulations and local government bylaws)
    - ii. date of removal

#### Deadlines:

The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

**Note:** Additional Terms and Conditions apply. Visit: [bchydro.com/homerebates](http://bchydro.com/homerebates), [fortisbc.com/homerebates](http://fortisbc.com/homerebates) or [betterhomesbc.ca](http://betterhomesbc.ca) for full details.

## Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2020

### ELECTRICAL SERVICE UPGRADE

#### Rebate requirements:

1. Only homes that convert from a fossil fuel (oil, propane or natural gas) primary space and/or water heating system to a heat pump are eligible. A primary heating system must have the capacity to heat a minimum of 50% of the home for the entire heating season to 21°C.
2. The service upgrade (new wire) is for 100, 200– or 400–amp service to an existing home.
3. Eligible expenses include:
  - a. utility connection fees
  - b. electrical panel or sub–panel upgrade
  - c. service mast alterations or replacement
  - d. conduit replacement, meter base alterations or replacements
  - e. weather head alteration or replacement
  - f. labour
4. All upgrades must be installed by a contractor with a GST number and a valid B.C. business license for the trade related to the upgrade being installed (e.g. Contractor—Electrical, Contractor—Heating, Inter–municipal trades and construction business license).

| Upgrade                    | Rebate | Rebate maximum  | Bonus eligibility  |
|----------------------------|--------|---|--------------------|
| Electrical service upgrade | \$500  | Maximum of one electrical service upgrade rebate per home | Not bonus–eligible |

#### Supporting documentation:

1. Paid utility bill or invoice for the electrical service upgrade (100, 200, or 400 amp service) (**see sample invoice for requirements**).
2. Paid contractor invoice (**see sample invoice for requirements**).

#### Deadlines:

The rebate application and supporting documentation must be submitted within six (6) months of the invoice date.

**Note:** Additional Terms and Conditions apply. Visit: [bchydro.com/homerebates](http://bchydro.com/homerebates), [fortisbc.com/homerebates](http://fortisbc.com/homerebates) or [betterhomesbc.ca](http://betterhomesbc.ca) for full details.

## Terms and conditions—rebate eligibility requirements

Effective date: For invoices dated on or after April 1, 2020

### ENERGUIDE HOME EVALUATIONS

#### Rebate requirements:

1. EnerGuide home evaluations must be performed by a Program Qualified Energy Advisor listed at [betterhomesbc.ca/ea](http://betterhomesbc.ca/ea).
2. A pre-upgrade EnerGuide home evaluation must be completed before a post-upgrade EnerGuide home evaluation.

#### Rebate details:

| Upgrade                                       | Rebate | Rebate maximum  | Bonus eligibility  |
|---|--------|---|--------------------|
| Pre-Upgrade EnerGuide Home Evaluation Rebate  | \$200  | Maximum of one Pre-upgrade EnerGuide Home Evaluation Rebate per home  | Not bonus-eligible |
| Post-Upgrade EnerGuide Home Evaluation Rebate | \$100  | Maximum of one Post-upgrade EnerGuide Home Evaluation Rebate per home | Not bonus-eligible |

#### Supporting documentation:

1. Paid invoice for pre-upgrade EnerGuide home evaluation (see **sample invoice** for requirements) and/or post-upgrade EnerGuide home evaluation (see **sample invoice** for requirements).

#### Deadlines:

1. The Pre-Upgrade EnerGuide Home Evaluation Rebate application and supporting documentation must be submitted within six (6) months of the date of the evaluation.
2. The post-upgrade EnerGuide home evaluation must be completed within 18 months of the pre-Upgrade EnerGuide Home evaluation. The rebate application and supporting documentation must be submitted within six (6) months of the date of the evaluation.

**Note:** Additional Terms and Conditions apply. Visit: [bchydro.com/homerebates](http://bchydro.com/homerebates), [fortisbc.com/homerebates](http://fortisbc.com/homerebates) or [betterhomesbc.ca](http://betterhomesbc.ca) for full details.
